### COMPANY DESCRIPTION

For over 50 years American Industries, Inc. has been proudly providing American-made products to the manufacturing, agriculture, transportation, aerospace, construction, food processing, local and state government, all branches of our military services, medical, and energy markets. Our product categories include but are not limited to: adhesives & sealants, water & solvent based degreasers, hand care, building & grounds, lubricants & penetrants, and industrial specialties. When applicable, our products have been approved and rated by the USDA or certified as environmentally preferred by the USEPA Design for the Environment. Our sales team can recommend the best solutions to your problems because we back up these recommendations with industry research and years of experience. We look forward to the opportunity to better understand your business and to satisfy your unique needs and interests.
